

Our Maths Curriculum Vision

**“The only way to learn mathematics is to do mathematics.” Paul Halmos
(Mathematician)**

In our Maths lessons we ROCK!

- **Respectful** – we are respectful to the ideas and explanations of others. This helps us to learn and understand new or different methods to those which we might use
- **Open minded** – we are open minded to see maths in a number of different ways. We know that mistakes are our friends and we can learn from mistakes we might make
- **Curious** – we are curious to see how maths links into different parts of our lives. We ask questions to deepen our knowledge and understanding
- **Kind** – we are kind in sharing the methods which we use to help everyone understand and love maths

In conclusion...We ROCK!
