## Multiplication and division

|  | MULTIPLICATION \& DIVISION FACTS |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| EYFS | Year 1 | Year 2 | Year 3 | Year 4 | Year 5 | Year 6 |
| To recall double facts to 10. <br> To identify if groups are equal or unequal. | count in multiples of twos, fives and tens (copied from Number and Place Value) | count in steps of 2, 3, and 5 from 0 , and in tens from any number, forward or backward (copied from Number and Place Value) | count from 0 in multiples of 4, <br> 8,50 and 100 <br> (copied from Number and Place Value) | count in multiples of $6,7,9,25$ and 1 000 (copied from Number and Place Value) | count forwards or backwards in steps of powers of 10 for any given number up to 1000000 <br> (copied from Number and Place Value) |  |
| To explore halving and understand how this is a number which has been split into two equal groups. <br> To create equal groups and be able to see two parts. |  | recall and use multiplication and division facts for the 2,5 and 10 multiplication tables, including recognising odd and even numbers | recall and use multiplication and division facts for the 3,4 and 8 multiplication tables | recall multiplication and division facts for multiplication tables up to $12 \times 12$ |  |  |
| MENTAL CALCULATION |  |  |  |  |  |  |
|  |  |  | write and calculate mathematical statements for multiplication and division using the multiplication tables that they know, including for two-digit numbers times onedigit numbers, using mental and progressing to formal written methods (appears also in Written Methods) | use place value, known and derived facts to multiply and divide mentally, including: <br> multiplying by 0 and <br> 1 ; dividing by 1 ; multiplying together three numbers | multiply and divide numbers mentally drawing upon known facts | perform mental calculations, including with mixed operations and large numbers |
|  |  | show that multiplication of two numbers can be done in any order (commutative) and division of one number by another cannot |  | recognise and use factor pairs and commutativity in mental calculations (appears also in Properties of Numbers) | multiply and divide whole numbers and those involving decimals by 10,100 and 1000 | ```associate a fraction with division and calculate decimal fraction equivalents (e.g. 0.375) for a simple fraction (e.g. \({ }^{3 / 8}\) ) (copied from Fractions)``` |

|  | WRITTEN CALCULATION |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Year 1 | Year 2 | Year 3 | Year 4 | Year 5 | Year 6 |
|  |  | calculate mathematical statements for multiplication and division within the multiplication tables and write them using the multiplication <br> $(x)$, division $(\div)$ and equals <br> $(=)$ signs | write and calculate mathematical statements for multiplication and division using the multiplication tables that they know, including for two-digit numbers times onedigit numbers, using mental and progressing to formal written methods (appears also in Mental Methods) | multiply two-digit and three-digit numbers by a onedigit number using formal written layout | multiply numbers up to 4 digits by a oneor two-digit number using a formal written method, including long multiplication for two-digit numbers | multiply multi-digit numbers up to <br> 4 digits by a two-digit whole number using the formal written method of long multiplication |
|  |  |  |  |  | divide numbers up to 4 digits by a onedigit number using the formal written method of short division and interpret remainders appropriately for the context | divide numbers up to 4-digits by a two-digit whole number using the formal written method of short division where appropriate for the context divide numbers up to <br> 4 digits by a two-digit whole number using the formal written method of long division, and interpret remainders as whole number remainders, fractions, or by rounding, as appropriate for the context |
|  |  |  |  |  |  | use written division methods in cases where the answer has up to two decimal places (copied from Fractions (including decimals)) |
|  | PROPERTIES OF NUMBERS: MULTIPLES, FACTORS, PRIMES, SQUARE AND CUBE NUMBERS |  |  |  |  |  |
|  | Year 1 | Year 2 | Year 3 | Year 4 | Year 5 | Year 6 |

|  |  |  |  | recognise and use factor pairs and commutativity in mental calculations (repeated) | identify multiples and factors, including finding all factor pairs of a number, and common factors of two numbers. <br> know and use the vocabulary of prime numbers, prime factors and composite (nonprime) numbers establish whether a number up to 100 is prime and recall prime numbers up to 19 | identify common factors, common multiples and prime numbers <br> use common factors to simplify fractions; use common multiples to express fractions in the same denomination (copied from Fractions) |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  |  |  | recognise and use square numbers and cube numbers, and the notation for squared ( ${ }^{2}$ ) and cubed ( ${ }^{3}$ ) | calculate, estimate and compare volume of cubes and cuboids using standard units, including centimetre cubed ( $\mathrm{cm}^{3}$ ) and cubic metres $\left(m^{3}\right)$, and extending to other units such as $\mathrm{mm}^{3}$ and $\mathrm{km}^{3}$ <br> (copied from Measures) |

|  | estimate the answer to a <br> calculation and use inverse <br> operations to check answers <br> (copied from Addition and <br> Subtraction) | estimate and use inverse <br> operations to check answers <br> to a calculation <br> (copied from Addition and <br> Subtraction) |
| :--- | :--- | :--- | :--- | :--- |

|  | PROBLEM SOLVING |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| EYFS | Year 1 | Year 2 | Year 3 | Year 4 | Year 5 | Year 6 |
| To begin to find some missing numbers when working on equal groups and doubling and halving. | solve one-step problems involving multiplication and division, by calculating the answer using concrete objects, pictorial representations and arrays with the support of the teacher | solve problems involving multiplication and division, using materials, arrays, repeated addition, mental methods, and multiplication and division facts, including problems in contexts | solve problems, including missing number problems, involving multiplication and division, including positive integer scaling problems and correspondence problems in which n objects are connected to $m$ objects | solve problems involving multiplying and adding, including using the distributive law to multiply two digit numbers by one digit, integer scaling problems and harder correspondence problems such as $n$ objects are connected to $m$ objects | solve problems involving multiplication and division including using their knowledge of factors and multiples, squares and cubes | solve problems involving addition, subtraction, multiplication and division |
|  |  |  |  |  | solve problems involving addition, subtraction, multiplication and division and a combination of these, including understanding the meaning of the equals sign |  |
|  |  |  |  |  | solve problems involving multiplication and division, including scaling by simple fractions and problems involving simple rates | solve problems involving similar shapes where the scale factor is known or can be found (copied from Ratio and Proportion) |
