

Our EYFS Vision

At Leconfield, our vision is to provide a safe, caring and inspiring environment where children are supported, challenged, and valued personally and academically so they can be the best they can be.

We aim to offer a rich and engaging curriculum in which children can be curious and encouraged to explore and experience new concepts and the wider world.

Using the Characteristics of Effective learning as the foundations in which to build upon our curriculum is structured for our unique community. Our curriculum interweaves the areas of learning to ensure that by the time the children leave reception they are confident, independent learners who are willing to have a go and persevere.

But our main aim is to send pupils into Key Stage 1, who just have a real love and passion for learning.

We believe that effective curriculum planning and sequencing is essential to secure learning for all children regardless of ability or background. We ensure learning is planned through a progression of skills over time to help children know more and remember more. We make explicit links between current learning and previously mastered knowledge and skills.

At Leconfield, we recognise individual challenges to learning and teaching is adapted accordingly. A range of strategies are used to promote an inclusive approach for all children. We provide pastoral and support and learning opportunities which are fair and equitable to all.

Our school vision is at the core of our curriculum with curiosity and open mindedness being particularly central to our teaching and learning experiences.

We are:

Respectful - We aim to have learners who are respectful: of their environment, each other, of the world and the views of others too. Everyone is valued and has a place in our community. We provide a friendly and inclusive environment where quality relationships are important. We value and respect individuals.

Open minded - We want children to be open in trying new things, having a go and persevering when things become difficult.

Curiosity - We encourage children to be curious, ask questions, develop their understanding, try out new things and want to find out more. We encourage and enable everyone to experience success and help our children to develop lively, enquiring, imaginative and creative minds through our broad and exciting curriculum

Kindness - We develop kind children, who care for others, themselves and the world around them.

In conclusion...We ROCK!
